

Augustus - Fossil Oak Herringbone

Product Description

Introduce luxurious style into your home with our beautiful range of Augustus Herringbone Porcelain Tiles, achieve the look of a solid wood herringbone design but with all the benefits that porcelain tile has to offer. Expertly crafted from extremely hardwearing and versatile porcelain, our tiles can be used on floors and walls and benefit from being 100% waterproof.

Our Augustus Herringbone tiles are easy to maintain and suitable for underfloor heating, however please note if you have a water heating system then you will need to install an anti-crack mat to prevent your tiles from breaking with the increasing heat.
